

Foster Home Policies & Procedures

By signing and submitting the Foster Parent Application, the individual agrees to accept and abide by the following Foster Home Policies & Procedures

Compensation. Foster services are provided strictly on a volunteer basis. No pay benefits or compensation will be paid by CBHS.

General Care. The Foster Parent must agree to accept personal responsibility for the humane and loving care of shelter animal(s) during their stay in the home. This includes, but is not limited to, adequate shelter, food, water, exercise, general health care, and companionship. Pet food and supplies may be provided by CBHS on request of the Foster Parent.

Veterinary Care. Arrangements are to be made by CBHS for all required routine and emergency medical care. Foster Parents must get prior authorization for veterinary care for their foster animals. If not authorized, any such expenses are the responsibility of the Foster Parent.

Other Pets. Household pets must have up-to-date vaccinations before a shelter animal is placed in the home. Many viruses have an incubation period, thus the Foster Parent's personal pets may be at risk for contagion. Any veterinary expenses incurred for the treatment of household pets are the responsibility of the Foster Parent.

Damage / Injury. CBHS is not responsible for any damages or injuries inflicted by the foster animal to any property, persons, or animals during its stay in the foster home.

Applicable Laws. The Foster Parent must adhere to all leash laws, other applicable laws, and city ordinances regarding the number of animals over five months of age that may live with the Foster Parent. There can be no more than 6 animals in the home- a litter of kittens counts as 1 animal.

Inspection. Agents of CBHS will be allowed to inspect the premises where the animal is being housed on a yearly basis.

Ownership. Fostered animals remain the property of CBHS and may not be sold, traded, given away, or adopted out by a Foster Parent.

Designated Foster Period. If animal(s) are placed in foster care for a designated period of time, the animal(s) will be returned to CBHS at the end of that period or earlier at CBHS request.

Undesignated Foster Period. If animal(s) are placed in foster care for an undesignated period of time and are considered by CBHS to be available for adoption, the Foster Parent will cooperate with CBHS in the showing of the animal(s) to prospective adopters provided that such requests are reasonable.

Adoption. Foster Parents may refer individuals as prospective adopters of fostered animal(s) to CBHS. While the recommendations of the Foster Parent shall be given every consideration, the final decision about an appropriate adoptive home is made by and through CBHS.

Disposition. The purpose of placing animals in foster homes is to give them a chance at life that they might not have had. However, the disposition of the animal(s) in foster care remains the responsibility and is at the sole discretion of CBHS

Foster Parent Application

Thank you for your willingness to join us in our efforts to protect the welfare of animals in our community!

The purpose of our Foster Program is to enrich the quality of care for our shelter animals, which may be ill, injured, orphaned, handicapped, or unsocialized. The goal of the program is to prepare pets for placement into a loving, forever home.
